

Project 1: Bandit Game

- Due Jan 18 by 11:59pm
- Points 70
- Submitting an external tool
- Available after Jan 12 at 12am

This project provides hands-on experience using a command shell to perform basic operations within the Linux operating system. Specifically, you will learn to:

- Perform operations using remote access to connect to another host computer.
- Navigate directories, manipulate files, and use various command-line tools.

Before You Begin

Ensure you have the following prepared:

- **Create a new directory** in your CY2550 repository named `project1`.
- Inside `project1`, create two text files:
 - `flags.txt`: List each flag you obtain (one per line, order does not matter).
 - `token.txt`: Store your password here. Do not include your username.

Steps to Complete the Project

Follow these steps to receive full credit. You must also submit a text file containing the flags you obtained for each level completed. **Levels 8 and 9 require screenshots to be submitted separately.**

1. Access the Server

- Your **username** is the user portion of your Northeastern email.
 - Example: For `test@northeastern.edu`, the username is `test`.
- Find your **password** in my Khoury GitHub repository
(<https://github.com/cy2550repo/cy2550/blob/2fc6f91a126529ee6ee5c047e70f5784919c7bb>)

([https://github.com/cy2550repo/cy2550/blob/2fc6f91a126529ee6ee5c047e70f5784919c7bb6/Project%](https://github.com/cy2550repo/cy2550/blob/2fc6f91a126529ee6ee5c047e70f5784919c7bb6/Project%201%20Bandit%20Game/level1/level1.txt)).

- Use SSH to log in with the following command. Enter your password when prompted:

```
ssh [username]@96.126.108.161
```

Level Descriptions and Commands of Interest

Level 1: Easy Peasy Lemon Squeezy

- Simply output the only file in the level.
- **Commands of Interest:** `man`, `ls`, `cd`, `cat`

Level 2: Spaces in Names? Many Directories?

- Explore around and find the flag.
- **Commands of Interest:** `man`, `ls`, `cd`, `cat`, `file`

Level 3: Where are the files?

- The directory appears empty—find the hidden flag file.
- **Hint:** There *are* files.
- **Commands of Interest:** `man`, `ls`, `cd`, `cat`, `file`

Level 4: Too Many Files!

- Find the flag hidden among 1,000 files.
- **Commands of Interest:** `man`, `grep`, `ls`, `cd`, `cat`, `file`, `find`

Level 5: Which Flag is the Imposter?

- `flags.txt` contains many flags, but only one is unique. Find the correct flag.
- **Commands of Interest:** `man`, `grep`, `ls`, `sort`, `uniq`, `cat`

Level 6: Hash Identification

- Find the correct flag in the `hashes` directory.
- **Hint:** Hashing might help.

- **Commands of Interest:** `man`, `sort`, `cat`, `md5sum`, `cd`, `ls`

Level 7: File Ownership

- Find the flag owned by `justin` with group owner `devin`.
- **Commands of Interest:** `man`, `ls`, `cd`, `find`, `file`, `grep`, `cat`

Reminder: Levels 8 and 9 require screenshots.

Level 8: Logging in as Bob

- Log in as `bob` and take screenshots of the process, including:
 - Commands used
 - Finding credentials
 - Logging in
- **Commands of Interest:** `man`, `ls`, `cd`, `ssh`

Level 9: File Transfer

- Transfer a text file from your VM to the challenge server.
- Take screenshots of the process, including:
 - Commands used
 - The successfully transferred file (verify with `ls`)
- **Commands of Interest:** `man`, `scp`
 - Example command:

```
scp /home/micah/important-document.txt micah@192.168.1.8:/home/micah/level9
```

Project Submission & Deliverables

To receive full credit, complete all nine levels and submit the following:

1. CY2550 Repository Submission (70 points)

- `project1/flags.txt` : Must contain **exactly 7 lines**, one for each flag.

- `project1/token.txt` : Store your **password** here.
- Submit to: **Project 1: Bandit Games - Flag File**

2. Screenshot Submission (30 points)

- A PDF (or image files) containing your screenshots of levels 8 and 9.
- Submit to: **Project 1: Bandit Games - PDF/Images Submission**

Academic Integrity

- Feel free to ask questions on **Discord**, but do **not** post or share answers.
- Any form of **academic dishonesty** will **not** be tolerated.
