

Project 6: KC7 Exercises Part 2

- Due Apr 19 by 11:59pm
- Points 193
- Submitting a file upload
- File Types pdf
- Attempts 1
- Allowed Attempts 2
- Available Apr 6 at 12am - Apr 19 at 11:59pm

This assignment was locked Apr 19 at 11:59pm.

Navigate to <https://kc7cyber.com/>  [\(https://kc7cyber.com/\)](https://kc7cyber.com/) and select "Play Now - No Sign Up." This will automatically launch your terminal and start the first challenge.

Pause! We highly recommend creating an account so that your progress saves. It is on you to make sure that you do not lose your progress throughout the project.

Required Challenges

Titan Shield (with Microsoft Defender XDR) (Approx. 1 hour 30 minutes)

- > All Fun and Games (9 points)
- > It's Giving Sleet (11 points)
- > Perfectly Executed (7 points)
- > A Love Story ❤️ (20 points)
- > A Heartbreak 💔 (18 points)

Jojo's Hospital (Approx. 2 hours)

- > Crypto - but the bad kind (34 points)
- > Sharks in the hospital water (27 points)

Solvi Systems (Approx. 2 hours 30 minutes)

- > KQL 101 (12 points)
- > Someone's knocking (13 points)
- > Snail Mail (16 points)
- > Ecoshock (11 points)

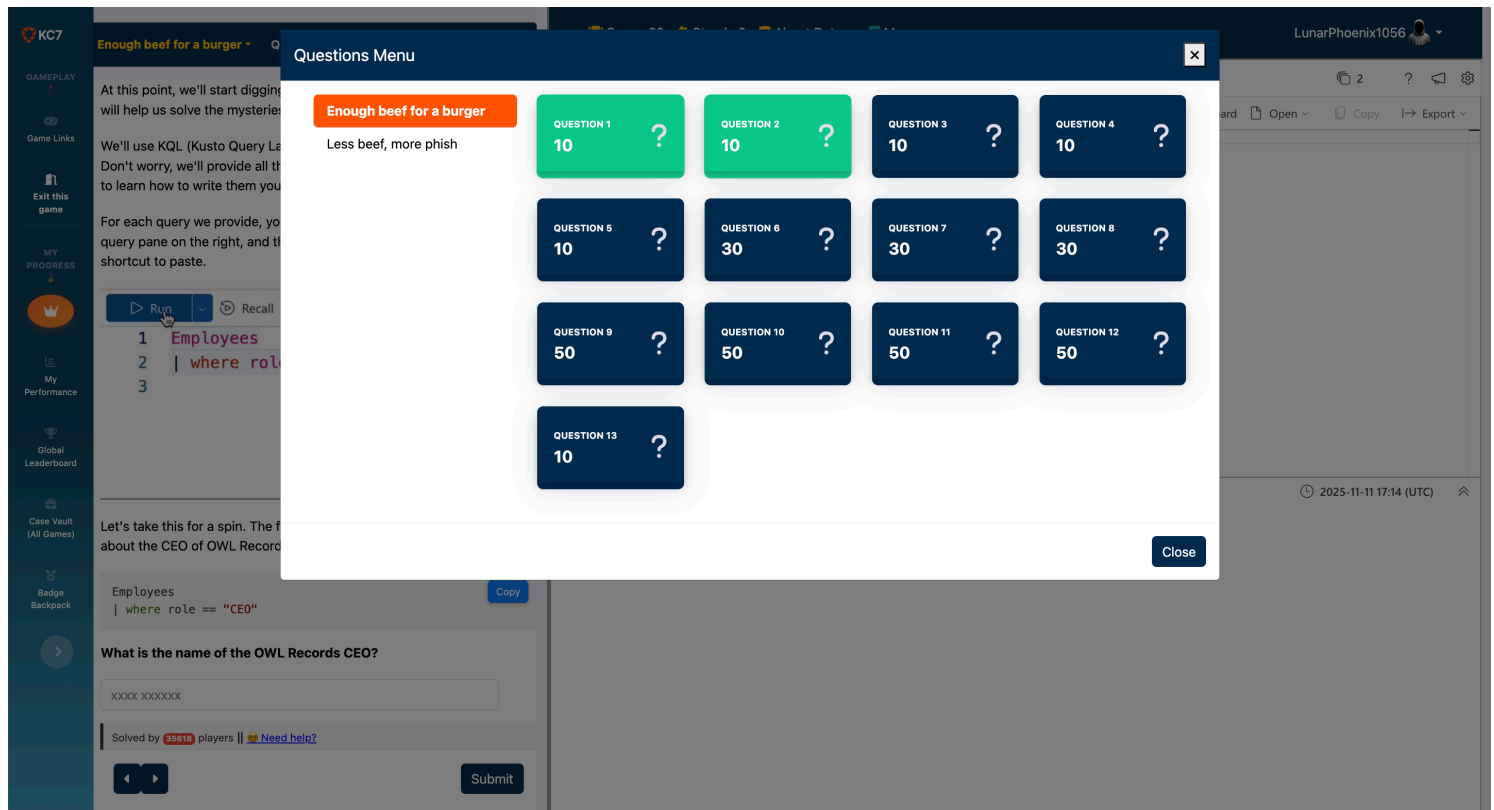

--> A shocking ending (15 points)

Submission Instructions

Please submit exactly 12 images— **all contained within one PDF**— showing your completed question menus after each required challenge. For example, to document completion of the a challenge with two levels, you should include two screenshots displaying the full questions menu (see the example below), with all questions marked green to receive full credit. This is all that is required.

Important: Please do not crop out your unique username in the top-right corner of each screenshot. Your username will be used to verify individual completion and ensure screenshots are not shared between students.

Important: You are given 2 submission attempts. Do not waste them because you will not be given more under any circumstances.

At this point, we'll start digging and will help us solve the mystery:

We'll use KQL (Kusto Query Language). Don't worry, we'll provide all the information you need to learn how to write them yourself.

For each query we provide, you'll write a query in the query pane on the right, and then click the Run button to execute it.
